FOR IMMEDIATE RELEASE

L.K. Comstock Awarded \$98 Million MTA Contract To Modernize the Signal System for Kings Highway Interlocking

New York, N.Y. (January 27, 2017) – L.K. Comstock & Company Inc., a leading specialty electrical contractor and a subsidiary of RailWorks Corporation, has been awarded a \$98 million contract with the Metropolitan Transportation Authority (MTA) to modernize the signal system on the Kings Highway Interlocking in Brooklyn, N.Y.

Work on the project extends 55 months with a targeted completion date in the spring of 2021. L.K. Comstock will install the upgraded signal system and CBTC (communications-based train control) –ready equipment. RailWorks Transit will perform related track and civil work. Both companies are subsidiaries of RailWorks Corporation.

L.K. Comstock is responsible for designing, furnishing and installing the CBTC-ready signal equipment and testing and placing into service of all equipment required to modernize the existing signal system at the Kings Highway Interlocking. The interlocking will be controlled from the Church Avenue Master Signal Tower. The work will include communications for the signal complex and new dispatchers office, including train dispatch, train identification, closed-circuit television (CCTV) and fire alarm systems.

RailWorks Transit is responsible for completing the track work, including a new special work portion, and constructing a new one-story relay room, CBTC and other equipment rooms and rehabilitating other existing rooms. They also will install related plumbing, HVAC (heating, ventilation and air conditioning) and fire suppression systems. The new relay room will be constructed over the existing three-track elevated railroad structure and will be supported on new foundations, columns and structural truss framework.

About L.K. Comstock - L.K. Comstock is one of the United States' largest specialty electrical contractors. Founded in 1904, the firm serves the transit industry and specializes in performing design support, engineering and installation, testing, start-up and construction and maintenance services. L.K. Comstock is based in East Farmingdale, N.Y., and performs work on projects throughout North America. It is a subsidiary of RailWorks Corporation. For more information, see www.lkcomstock.com.

About RailWorks Corporation - Founded in 1998, RailWorks Corporation provides track and transit systems construction and maintenance services throughout the United States and Canada. With annual revenue of nearly \$700 million, RailWorks is a leading provider of integrated construction services for major transit authorities, Class I and short line railroads as well as commercial and industrial companies with rail infrastructure. RailWorks is a privately held company. For more information, see www.railworks.com
