## **RAILWORKS NAMES ROLF TO LEAD TRACK DIVISION**

### *Robert Rolf Named Vice President of RailWorks Track Systems*

New York, NY - (August 27, 2010) - RailWorks Corporation, a leading provider of track and transit & systems construction and maintenance services throughout North America, announced today the promotion of Robert Rolf to vice president & general manager of the South Division of its RailWorks Track Systems subsidiary.

Rolf, formerly area manager of RailWorks Track Services, Inc., based in Bridgeton, Mo., is a licensed, professional engineer with more than 25 years of railroad construction and maintenance industry experience. He has been active throughout his career in industry associations, including the Track Functional Group (Committee #5) of The American Railway Engineering and Maintenance-of-Way Association (AREMA) and the St. Louis Railway Club.

In his new position, Rolf is responsible for the Houston-based South Division with branch offices in Beaumont, Corpus Christi and Dallas, Texas, and Bunkie, La., as well as project offices in the southern United States. These offices provide track construction, maintenance and rehabilitation services to railroads and rail-served industries in the southern United States, including transit lines and petro-chemical and port facilities with extensive plant-based operations.

RailWorks Corporation President and CEO Jeffrey M. Levy said, "Bob's extensive background in track design, construction and maintenance, as well as his leadership and expansion of our operation in the Midwest, provide a solid background for his new role leading the South Division operations in Texas and Louisiana. With the Panama Canal expansion, we expect significant activity along the entire Gulf Coast and are well-prepared to support our customers as they take advantage of this major development."

Rolf's appointment coincides with the retirement of Jack Wilt, who has served as vice president & general manager of the South Division of RailWorks Track Systems. Wilt began his 35-year career with Wm. A. Smith Construction Company in Houston in 1976 and later joined RailWorks when it acquired the track contractor in 1998.

**About RailWorks Corporation-** Founded in 1998, RailWorks Corporation provides track and transit & systems construction services throughout North America. With annual revenue of more \$400 million, RailWorks is a leading provider of integrated construction services for major transit authorities, Class I and short line railroads, and commercial and industrial companies. RailWorks is a privately held company based in New York, NY. For more information, see [www.railworks.com](http://www.railworks.com).
